50X1-HUM

1. The Hungarian Hydrobenzin Company, a petroleum processing plant, lies adjacent to the Peti Nitrogen Works. There are 1,200 workers of whom 40 percent are women. They live in Pétfürdő or in the new villages nearby.
2. West of the Pétfürdő railroad station, about 500 m. inside the woods there are three large underground tanks of a 1,000 cubic m. capacity. The area is well guarded.
3. The plant sends 70 percent of its oil production to Poland and Russia, 28 percent is taken away as reparations, the other two percent remains in Hungary. The products going to Russia are sent to the oil station at Zebrydowice in Poland.
4. Of the industrial gasoline produced, 40 percent goes to the laboratory of the Török firm of Budapest, 10 percent goes to Czechoslovakia

5. Main station of the pipeline from Lispeszentadorján. Instrument building. One story, 30 by 15 m.
6. Gasoline refinery, which uses the petroleum from Lispe. Heating oil, a by-product, is used by the plant and by the Hungarian state railroads. Monthly production is 1,100 tons. The refinery is about as high as a four-story building, 45 by 45 m.
7. Firehouse
8. Station for firemen. 20 men are always on duty with the most modern equipment.
9. Office of fire protection, police and factory guard.
10. (Not stated)
- 11 to 14. Refinery towers, 15 m. high, about 3.5 m. in diameter. Lispe oil is being used. It is refined into 33 to 35 percent raw gasoline, 20 percent gas oil, 30 percent kerosene, and the rest into heating oil.
16. Loading station for tank cars. Connected with the tanks by underground piping.
17. Offices on second story, workshops on ground floor; 30 by 30 m.
18. Transformer building, which serves the Péti Nitrogen Works too.
19. Pumping station for the pipeline to the tanks in the forest.
20. Air raid shelter.
21. Central laboratory.
